DESCRIPTION

High-quality solid board for light to heavy transport packaging for e.g. meat, fish, vegetables, non-food or industrial products for a sales-promoting presentation of goods at the POS. Due to the low material volume of solid board packaging, pallets, freight and transport space are optimally utilised, which saves costs at all stages of goods distribution. JadeBoard® Duo Brown is able to withstand the effects of moisture from cold stores or freezers without any serious loss of stability. A special feature is the low wall thickness, which promotes shorter freezing processes and is therefore ideal for quick freezing for frozen products.

APPLICATION

Cost-effective solid cardboard packaging solutions for versatile, high-performance, and sustainable shipping or retail packaging.

The general application recommendations are subject to technical testing of the specific cardboard grade.

SUITABLE FOR

- moist foods
- non-greasy foods
- dry foods

TECHNICAL SPECIFICATIONS

- Gram per square meter: 550 to 1400 g/m²
- Surface: uncoated, laminated
- Gluing: glued COBB60, glued COBB1800
- Colors: brown

CERTIFICATION

- Certified for direct contact with dry and non-greasy foods
- FSC®
- Recyclable according to standard EN 13430
