DESCRIPTION

Single-sided coated recycled cardboard for use in food packaging for product presentation at the point of sale (POS), with a whiteness of 82. Particularly suitable for direct contact with dry, non-greasy foods, as well as for use in the cold chain and in frozen storage. High level of protection for packaged products such as cereal, baked goods, fruits, vegetables, frozen pizza, or hygiene products. Non-food products such as screws, electrical items, or shower fixtures can also be attractively displayed on store shelves. Special back-side pigmentation enables low-dust processing.

APPLICATION

Folding boxes, individual packaging solutions or entire packaging concepts for the food industry, hygiene and cosmetics manufacturers or other consumer goods from various branches of industry.

The general application recommendations are subject to technical testing of the cardboard type.
