

JADEBOARD® PRO GT1 82

Recycled board coated on both sides with very good printing properties and high mileage in folding carton processing as well as for the packaging and filling industry.

SUSTAINABLE WHITENESS LEVEL 82 SUITABLE FOR OFFSET PRINTING: ON THE

PRINTABLE

COOLSAFE

DESCRIPTION

Double-sided coated recycled cardboard for use in food packaging for product display at the point of sale (POS). Particularly suitable for direct contact with dry, non-greasy foods, as well as for use in the cold chain and in frozen storage. High level of protection for packaged products such as cereal, baked goods, fruits, vegetables, frozen pizza, or hygiene products. Non-food products such as screws, light switches, or shower fixtures can also be attractively displayed on store shelves. The attractive white back of the JadeBoard® Pro GT1 82 is also popular for back-side printing. In addition, this grade is available as a special product with a brown-colored back.

APPLICATION

Folding boxes, individual packaging solutions or entire packaging concepts for the food industry, hygiene and cosmetics manufacturers or other consumer goods from various branches of industry.

The general application recommendations are subject to technical testing of the cardboard type.
