

JADEFLUTE®PRO

High-performance corrugated material with natural grey surface for packaging solutions with increased strength requirements.

CEPI CODE 44 CORRUGATED PAPER GOOD SCOREABILITY

DESCRIPTION

A high-performance corrugating medium whose high and consistent quality is achieved through careful selection of recovered paper grades and increased starch usage.

Everyday consumer goods are packed by consumer goods manufacturers in protective and functional corrugated board packaging and shipped in it. With JadeFlute® Pro, different corrugation dimensions can be produced for transport packaging. The product is characterized by higher strengths compared to conventional corrugated materials.

APPLICATION

Applications with increased strength requirements. Enables cost optimization of existing corrugated board compositions. Particularly suitable for use in the cold chain.

SUITABLE FOR

- non-greasy foods
- dry foods

TECHNICAL SPECIFICATIONS

- Gram per square meter: 110 to 140 g/m²
- Surface: uncoated
- Gluing: unglued
- Colors: gray

CERTIFICATION

- Certified for direct contact with dry and non-greasy foods
- FSC®
- Recyclable according to standard EN 13430
