DESCRIPTION

Recycled cardboard coated on both sides for use in food packaging for product presentation at the POS. Particularly suitable for direct contact with dry and non-greasy foodstuffs and for use in the cold chain and in deep-freezing. High protection for packaged products such as muesli, baked goods, fruit, vegetables, frozen pizza or hygiene products. Non-food products such as screws, light switches or shower fittings can also be presented in a sophisticated way on the sales shelf. The attractive white back of the JadeBoard® Pro GT1 82 is also popular for back printing. In addition, this quality can be purchased as a special product with a brown coloured reverse side.

USAGE

Folding boxes, individual packaging solutions or entire packaging concepts for the food industry, hygiene and cosmetics manufacturers or other consumer goods from various branches of industry.

The general recommendations for use apply subject to technical tests for the cardboard grade.
