DESCRIPTION

Pigmented recycling board on one or both sides as a transport solution and sales-promoting presentation of chilled dairy products with high stackability and packaging stability at cool and humid ambient temperatures. Constant quality allows high running speeds in the packing process.

In addition to its main area of application for dairy products, JadeBoard® Pro Steigen is also suitable for other cold storage packaging in the food sector.

USAGE

For products in cup form such as yoghurt, cream, quark, drinks or other chilled products.

The general recommendations for use apply subject to technical tests for the cardboard grade.

TECHNICAL DATA

- Grammage: 450 to 650 g/m²
- Surface: pigmented
- Glueings: sized COBB60
- Colours: white

CERTIFICATION

- Certified for direct contact with dry and non-greasy foods
