

JADEFLUTE® PRO

High-performance corrugated material with natural grey surface for packaging solutions with increased strength parameters.

CEPI-CODE 44

CORRUGATED PAPER

GOOD CREASABILITY

DESCRIPTION

A high-performance corrugating medium whose high and consistent quality is achieved through careful selection of recovered paper grades and increased starch usage. Everyday consumer goods are packed by manufacturers in protective and functional corrugated board packaging and shipped in it. With JadeFlute® Pro, different dimensions can be produced for transport packaging. The product is characterized by higher strengths compared to conventional corrugated materials.

USAGE

Applications with increased strength requirements. Enables cost optimization of existing corrugated board compositions. Particularly suitable for use in the cold chain.

TECHNICAL DATA

- Grammage: 110 to 140 g/m²
- Surface: uncoated
- Glueings: unsized
- Colours: grey

CERTIFICATION

- Certified for direct contact with dry and non-greasy foods
- FSC®
- Recyclable according to standard EN 13430
