

JADEKRAFT®

Kraft liner substitute with homogeneous brown kraft liner appearance for heavy packaging with highest strength parameters.

CEPI-CODE 90

KRAFTLINER REPLACEMENT

LINERBOARD

STRENGTH

DESCRIPTION

JadeKraft is a two-ply paper consisting of pulp and high-quality recovered paper grades, which results in excellent strength properties.

The closed surface of JadeKraft® enables good processing and is ideal for printing. Nevertheless, a certain roughness ensures that stacked corrugated cases do not slip during transport. As a kraftliner substitute, cost advantages are achieved compared to conventional kraftliner grades.

USAGE

Applications with the highest technical requirements in which kraftliner is used today. Particularly suitable for heavy packaging of industrial and consumer goods with high optical requirements on a brown surface

TECHNICAL DATA

- Grammage: 120 to 280 g/m²
- Surface: uncoated
- Glueings: sized COBB60
- Colours: brown

CERTIFICATION

- Certified for direct contact with dry and non-greasy foods
- FSC®
- Recyclable according to standard EN 13430
